

Step-by-Step Instructions

Business Use Case

Employees will have the ability to resign through the Employee Self-Service functionality.

Employees with two (2) Work Relationships <u>will not</u> be able to submit their resignation via Employee Self-Service and will need to work with their designated payroll team or manager to have it initiated on their behalf. To determine if you fall into this scenario, see the below section, "*Resignation of an Employee with Two (2) Work Relationships.*"

Before submitting a resignation in the system:

- Discuss the resignation with your manager first, before taking any action in the system.
- Please verify or update the personal contact information listed under <u>Contact Info</u>. Mailing address and phone number should be updated to ensure post separation communication will be received. Once Zachry e-mail access is revoked, the personal e-mail address recorded in the system will be used to provide access to your personal information and documents for up to 90 days after separation, so it is critical that this information is updated.
